

# CaseWorX for Schools

Holistic Support for your  
School Safety Teams

 versaterm

A photograph of a male teacher with glasses leaning over a desk to assist a young student. The student is focused on their work, and the teacher is pointing at a document. The image is overlaid with a semi-transparent blue filter.

# Earlier Interventions, Better Outcomes

Today, school safety requires early intervention and support programs to prevent violence and self-harm in schools. A proactive approach to Behavioral Threat Assessment and Management includes following best practices for identifying concerning behavior, investigating, assessing, and managing a student's well-being.

Learn how Versaterm School Safety solutions provide holistic support to improve outcomes for at-risk students and help create a safe school environment.

Consolidated Case  
Information

Efficiently Assess  
Incident Risk Level

Manage Intervention Plans,  
Increase Student Well-Being

Security Standards  
Made Simple

# Versaterm

Take a holistic approach to student well-being and safety with CaseWorX for Schools

Your Threat Assessment Teams work together to identify, evaluate, and address potential threats. They need a unified way to access incident reports, document information, and develop a plan to manage student well-being. Our solution connects workflows for a robust case management tool with an integrated, multi-database search portal. Best practices are also available to help guide teams and improve outcomes for at-risk students and create a safe school environment.

Let Versaterm support your threat assessment team to efficiently document, develop, and monitor individual plans for early intervention.

# Intervene Proactively

Efficiently assess threats, document processes, and develop individual plans for early intervention

## Follow Threat Assessment Models

Incorporate your team's processes and forms while adhering to CSTAG, NTAC, and other threat assessment models

## Improve Cross-Division Communication

Streamline communication between team members and treatment providers

## Increase Student Well-Being

Create and follow individualized intervention plans to redirect students from a path to violence or self-harm

## Search Critical Information

Use a federated search to quickly pull critical information from most disparate, external data sources

# Consolidated Case Information

Document concerns while ensuring that information is stored and maintained securely

## Centralized Platform

Import existing records and automate data entry from multiple systems, including student information systems, law enforcement, and juvenile justice systems

## Documentation of Low-Level Concerns

Record and view any minor concerns from staff members about a student's behavior to identify risks before they become safety threats

## Digital Document Repository

Reduce the time spent searching for documents by managing your school safety and intervention paperwork and forms digitally in one location

# Efficiently Assess Incident Risk Level

Make better informed decisions during a behavioral threat assessment

## Integrated Assessment Best Practices

Incorporate your team's workflow, forms, and processes while adhering to CSTAG, NTAC, and other threat assessment models and guidelines

## Student Information Documentation

Record, review, and manage student data easily to evaluate potential school safety risks more quickly

## Consistent Student Threat Assessment Reports

Quickly generate a student's case timeline to gain insights into key events

# Manage Interventions, Increase Well-Being

Improve outcomes for at-risk students and create a safe school environment

## Guided Student Well-Being Process

Follow the student well-being behavior assessment process through a personalized dashboard to ensure students receive needed support

## Improved Student Success

Create and follow individualized intervention plans to redirect students away from a path towards violence or self-harm

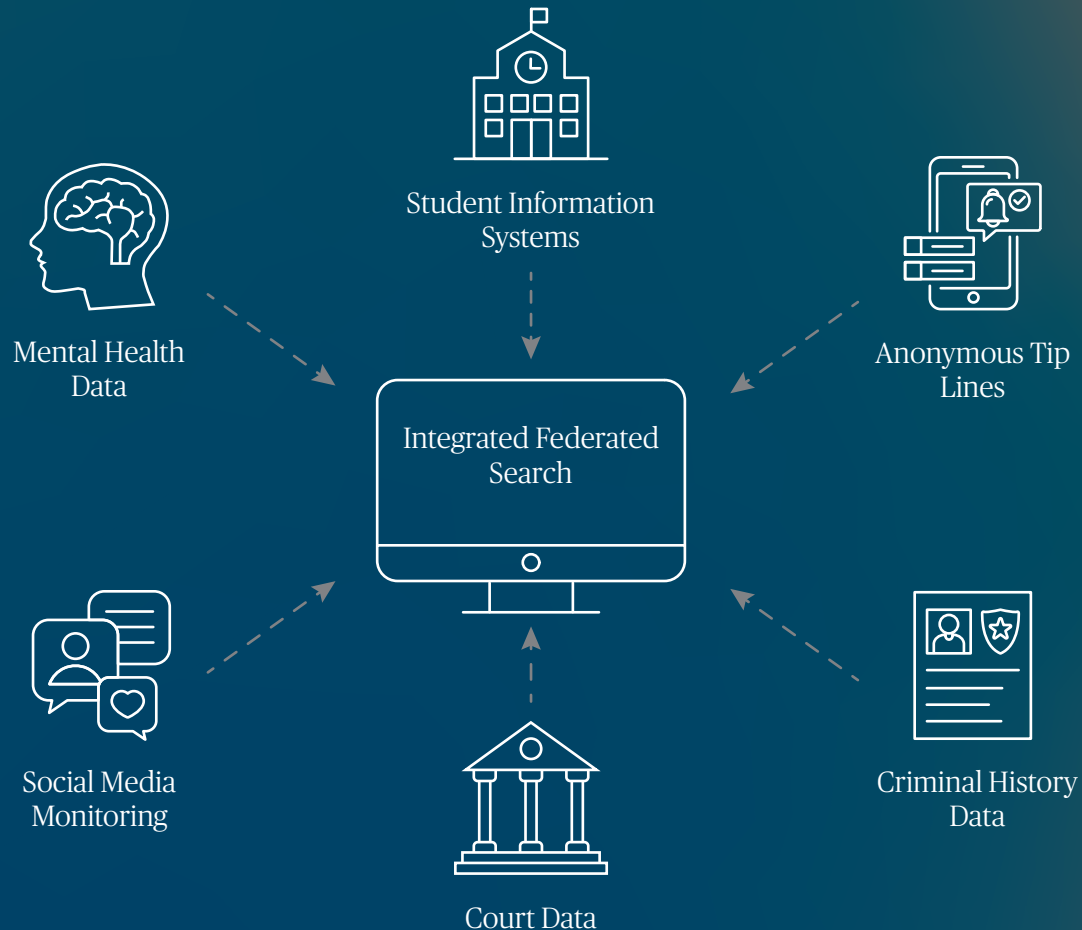

## Simplified Trend Identification

Analyze case data and search results to assess and develop individual plans to improve student well-being and safety

# Integrated Federated Search

Secure access to timely, complete and accurate information from multiple sources via a single search

# Security Standards Made Simple

Maintain data security and retention compliance while fostering collaboration

## Meet State and Federal Compliance

Integrated guardrails help ensure compliance with applicable state and federal privacy requirements

## Role-Based Security and Access Control

Maintain student and school information security by providing the right information to the right people at the right time

## Information Sharing for Multi-Jurisdictional Teams

Securely share pertinent student intervention and risk details across different schools, districts, or threat assessment partners

## About Versaterm

Versaterm is a global public safety solutions company helping agencies transform their organizations by providing innovative solutions, expertise and an unwavering dedication to customer service. Formed in 1977, we are on a journey to build an ecosystem that will enhance community safety by creating purposeful integrations across the public safety spectrum. We deliver intuitive tools developed for public safety agencies, forensic labs, court systems, schools and other institutions. Our selective growth strategy focuses on improving customer and user workflows for more efficient and effective operations, leading to better service and more just outcomes.
