Versaterm CaseWorX for Courts

People-Centered Solution for Case Management

versaterm

Focus on Outcomes, Not Data Management

Courts continue to handle a high volume of cases, and manual processes can slow you down. Because of this, you need a platform that can keep up with your team and partners.

The right tools for tracking individual progress and managing cases are necessary for gaining more control over the organized chaos.

Spend less time entering and managing data and more time supporting individuals through the court and rehabilitation process with purpose-built solutions from Versaterm.

Versaterm

Unlock greater efficiency, lower costs and reduce errors with Versaterm CaseWorX for Courts.

The challenges that courts face were the inspiration for developing our platform. We designed the solutions to assist you in optimizing your workflows, improving collaboration among team members, and ensuring accurate information sharing.

With Versaterm, you can streamline your processes, increase productivity and ultimately deliver better outcomes for your clients.

At our core, we're committed to empowering courts with the technology and support they need to succeed. If you're looking to modernize your operations, we're here to help you achieve your purpose more efficiently and effectively.

Proactive Efficiency

Treatment courts, pretrial services and probation court staff can dedicate more time to better outcomes for their communities with streamlined operations

Simplify Data Collection and Analysis
Easily import and analyze data while ensuring data integrity and reducing errors

Improve Reporting Processes
Gain insights and key metrics to help you apply for additional grants and funding

Realize Better Intervention
Outcomes give all team members the information they need to increase program completion and reduce recidivism

Convert Paperwork into Performance

Less paper saves time and boosts your court's performance through greater accuracy, consistency and efficiency

Streamline Data Entry with Integrations

Easily import existing data and streamline data entry from drug screen labs, criminal history databases, case monitoring solutions and more

Increase Workflow Efficiency through Automation

Create court/team specific forms to automatically fill in specified fields such as Name, Date of Birth, Case Number and others

Simplify Document Administration

From court orders to community service time sheets, everything is kept organized in one place

Track Individual Success Journeys

Comprehensive tracking and reporting put you in control of your court's results story

Monitor Individual Progress

Track and monitor individual progress, including drug screens, court sessions, treatment, phase advancement, case notes, dependents and more

Generate Analytical Reports

Produce individual snapshots to program analytics. Gain insights and key metrics to help you apply for additional grants and funding

Track Individual's Payments

Simplify bookkeeping with integrated accounting functions to track outstanding balances and individual's payment history

Collaboration that Delivers Results

Better connect your team with adaptable options and efficient task management

Adapt Your Interface
Design custom, specific dashboards for each user group in your system

Unify Your Team
See the assigned tasks, meetings and events for each team member

Simplify Reporting
Build template reports for individual tracking and program performance

About Versaterm

Versaterm is a global public safety solutions company helping agencies transform their organizations by providing innovative solutions, expertise, and an unwavering dedication to customer service. Formed in 1977, we are on a journey to build an ecosystem that will enhance community safety by creating purposeful integrations across the public safety spectrum. We deliver intuitive tools developed for public safety agencies, forensic labs, court systems, schools, and other institutions. Our selective growth strategy focuses on improving customer and user workflows for more efficient and effective operations, leading to better service and more just outcomes.
