Earlier Interventions, Better Outcomes

Today, school safety requires early intervention and support programs to prevent violence and self-harm in schools. A proactive approach to Behavioral Threat Assessment and Management includes following best practices for identifying concerning behavior, investigating, assessing and managing a student's well-being.

Learn how Versaterm School Safety solutions provide holistic support to improve outcomes for at-risk students and help create a safe school environment.

Versaterm

Take a holistic approach to student well-being and safety with Versaterm CaseWorX for Schools

Your Threat Assessment Teams work together to identify, evaluate and address potential threats. They need a unified way to access incident reports, document information and develop a plan to manage student well-being. Our solution connects workflows for a robust case management tool with an integrated, multi-database search portal. Best practices are also available to help guide teams and improve outcomes for at-risk students and create a safe school environment.

Let Versaterm support your threat assessment team to efficiently document, develop and monitor individual plans for early intervention.

Intervene Proactively

Efficiently assess threats, document processes and develop individual plans for early intervention
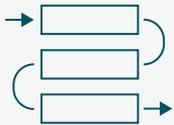

Follow Threat Assessment Models
Incorporate your team's workflow, forms and processes while adhering to NTAC and other evidence-based behavioral threat assessment models and guidelines.

Improve Cross-Division Communication
Streamline communication between team members and treatment providers

Increase Student Well-Being
Create and follow individualized intervention plans to redirect students from a path to violence or self-harm

Search Critical Information
Use a federated search to quickly pull critical information from most disparate, external data sources

Consolidated Case Information

Record and track safety concerns with confidence, knowing that all information is securely stored and properly maintained. Our school safety case management solution ensures that sensitive data remains protected while providing administrators with the tools they need to assess and manage potential risks effectively.

Centralized Platform

Import existing records and automate data entry from multiple systems, including student information systems, law enforcement and juvenile justice systems

Documentation of Low-Level Concerns

Record and view any minor concerns from staff members about a student's behavior to identify risks before they become safety threats

Digital Document Repository

Reduce the time spent searching for documents by managing your school safety and intervention paperwork and forms digitally in one location

Efficiently Assess Incident Risk Level

Gain deeper insights and make well-informed decisions throughout the behavioral threat assessment process. Our solution helps teams assess risks, collaborate effectively and take proactive measures to support student safety.

Integrated Assessment Best Practices

Incorporate your team's workflow, forms and processes while adhering to NTAC and other evidence-based behavioral threat assessment models and guidelines

Student Information Documentation

Record, review, and manage student data easily to evaluate potential school safety risks more quickly
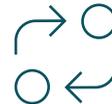

Consistent Student Threat Assessment Reports

Quickly generate a student's case timeline to gain insights into key events

Manage Intervention, Increase Well-Being

Support at-risk students to improve outcomes while fostering a safer, more inclusive school environment. Our solution helps educators track concerns, create intervention plans and promote student well-being.

Guided Student Well-Being Process

Follow the student well-being behavior assessment process through a personalized dashboard to ensure students receive needed support

Improved Student Success

Create and follow individualized intervention plans to redirect students away from a path towards violence or self-harm

Simplified Trend Identification

Analyze case data and search results to assess and develop individual plans to improve student well-being and safety

Security Standards Made Simple

An important component of these programs is protecting school and student record privacy and security compliance. Versaterm CaseWorX for Schools ensures student data privacy and security by meeting FERPA and HIPAA compliance standards. Hosted in the highly secure Microsoft Azure US Government Cloud, it provides a reliable solution for protecting sensitive school and student records.

Meet State and Federal Compliance
Integrated guardrails help ensure compliance with applicable state and federal privacy requirements

Role-Based Security and Access Control
Maintain student and school information security by providing the right information to the right people at the right time

Information Sharing for Multi-Jurisdictional Teams
Securely share pertinent student intervention and risk details across different schools, districts or threat assessment partners
